Module 2: Week2_UserPersonas

# Three User Personas for Snap N' Learn

App Name: StudySmart AI

Snap N' Learn AI is an AI-powered study app that helps students understand difficult school subjects, organize their notes, create flashcards, and prepare for tests. The following three personas represent the types of people who would benefit from using the app.

## Persona 1: The Busy High School Student

[Kako Se Pripremiti Za Maturu: Vodič Za Uspješan Ispit]

Name: Marcus

Age: 16

Occupation: High school student

Goals:

- Get better grades in school.
- Finish homework faster.
- Prepare for tests and quizzes.

Challenges:

- Has trouble understanding certain subjects.
- Gets distracted while studying.
- Sometimes forgets important information before tests.

How Snap N' Learn AI would help:

Snap N' Learn AI would explain difficult homework questions, turn his notes into flashcards, and create practice quizzes to help him remember what he learns.

Quote:

"I want to get better grades, but sometimes I just need someone to explain things in a way I understand."

# Persona 2: The Busy College Student

Stories - Student Services - University of Liverpool

Name: Sophia

Age: 20

Occupation: College student

Goals:

- Stay organized with schoolwork.
- Study more efficiently.
- Balance school, work, and personal life.

Challenges:

- Has several assignments and exams to prepare for.
- Does not always have enough time to study.
- Struggles to organize large amounts of class notes.

How Snap N' Learn AI would help:

Snap N' Learn AI would summarize her class notes, create flashcards, and build personalized study plans so she can use her study time more effectively.

Quote:

"I have so much schoolwork to do. I need a simple way to stay organized and make studying easier."

# Persona 3: The Student Who Struggles With Learning

Study skills for middle school: what actually works | Outschool

Name: Daniel

Age: 14

Occupation: Middle school student

Goals:

- Understand difficult school subjects.
- Feel more confident in class.
- Improve test scores.

Challenges:

- Sometimes feels confused during lessons.
- Is nervous about asking teachers for help.
- Needs extra practice to remember what he learns.

How Snap N' Learn AI would help:

Snap N' Learn AI would provide simple explanations, create practice questions, and help him review lessons at his own pace.

Quote:

"Sometimes I don't understand what the teacher is explaining. I wish I could get help whenever I need it."

# Summary of the Three Personas

| Persona | Main Need | How the App Helps |
|---|---|---|
| Marcus | Better grades | Homework help and quizzes |
| Sophia | Time management | Study plans and note summaries |
| Daniel | Better understanding | Simple explanations and practice |

# Conclusion

These three personas show how Snap N' Learn AI can help different types of students. Whether someone needs help understanding homework, organizing class notes, or preparing for exams, the app provides tools to make learning easier.

Main takeaway: Snap N' Learn AI is designed to help students become more confident, organized, and successful in school.
